

Phoenix Series KS0030 Key Safes

A range of heavy duty high security key safes with the capacity to hold between 30 and 144 keys. Ideal for the home or office.

- Fitted with user friendly, high security electronic lock programmable with users own code.
- The KS0032 and KS0033 have key deposit slots which allow keys to be deposited without the need to open the safe.
- Ready prepared for fixing to the wall with bolts supplied.
- Finished in a scratch resistant powder coated paint.
- When bolted to a wall these key boxes are the ideal defence against burglaries, aimed to prevent the theft of cars by stopping people stealing keys from homes and offices.
