

Secure Doc Office

- **120 minutes document protection** and **£1500 cash rating**

For some offices and small businesses, the requirement is for a quality document safe within a limited budget. Losing their project proposals or client data would have a disastrous impact on the company. The most cost-efficient solution is the Secure Doc Office from SecureLine. Offering a certified 120 minutes fire protection, the safe promotes an extensive interior, electronic LCD locking and a wide range of sizes. Combining so many quality features at a low price illustrates SecureLine's position as the only budget security brand to own. Many would agree...

Models

- The Secure Doc Office is available in five models and specially designed for use in office environments
- With its large capacity, optimum storage of binders and documents should be easily achieved

Locking

- The safes are equipped with an electronic security lock with LCD display as standard
- In addition to the normal user code (4-16 digits) the lock provides a master code, log event and anti-spy function

Certification

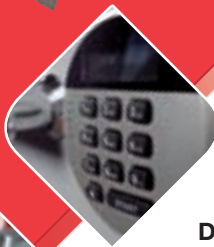

- The Secure Doc Office range is tested and certified to NT 017 – 120P offering 120 minutes fire protection for documents
- Due to the internal barrier material the internal temperature will not raise above 177°C

Additional features

- Supplied with lockable drawer and shelves as standard. (Shelves dependent on model)

Design

- The Secure Doc Office range will complement any user environment and is finished in a modern two tone light grey finish
